## MAKE a Difference in the World

Today creative people are necessary to help solve the world's most pressing problems. Our students, alumni, and faculty are at the cutting edge of every creative field, working in industry and the community -- even founding their own enterprises. At CCA you'll learn to make a difference in the world.

[Read about CCA alumni who are making a difference »](#)

## Study in an Interdisciplinary Community

CCA's interdisciplinary community fuels creativity and innovation. You will be constantly exposed to different ways of thinking and making. Today's industrial designers show products on the fashion runway, painters think and create beyond their canvases, and writers collaborate with illustrators to produce graphic novels.

CCA prepares you to do the same -- and more.

## Learn from the Best

CCA faculty and visiting artists, designers, and writers challenge you to take risks and explore new ideas. They are all practicing professionals and scholars and some of the most prominent leaders in their fields. And with an 8:1 student-to-faculty ratio, you'll benefit from the appreciable amount of one-on-one time they offer.

that prepares you for the challenges of college. Based on the beautiful [historic Oakland campus](#), you will explore your established areas of interest, discover new ones, and use your motivation and creative skills to make art that matters.

## EMOJI DESIGN AND CREATION

The design community needs creative thinkers and designers like you to find new ways to communicate our feelings, thoughts and ideas. California College of the Arts is dedicated to helping humans find a way to use emoji creation and design as the primary form of communication. There's no need to look someone in the eyes and tell them you love them, when you could just send it in a text with a smiley face blowing a heart kiss. As the technology takes us to new heights, it is important to have the best and brightest thinkers of the taking our daily expressions and morphing them into a teeny weeny little yellow round faces. Emojis are quick and straight to the point and nothing gets lost in translation.

## EVENTS

### Concerned About Things Left Out

Presented as part of the 2015-16 AICAD Fellowship December 7, 2015–January 23, 2016
